

British Forces Take German Trenches on Scarpe River Front

Gain of About a Mile and Capture 126 Prisoners—Artillery Activity Continues Without Interruption on Franco-Belgian Frontier—Especially Violent About Dixmude—French Repulse Hun Attack Between Soissons and Reims—British Shoot Down Eight German Air Planes—Heavy Fighting Between Austrians and Italians.

From the North Sea to the Franco-Belgian frontier the entente and Germans are engaged in artillery duels, which are especially violent around Dixmude and between Steenstraete and Het Sas in the region of Wytschaete, south of Ypres. On the north bank of the Scarpe River to the east of Arras the British have captured from the Germans, trenches over a front of about a mile, and made 163 prisoners. The Germans are heavily attacking the French troops in the line between Soissons and Reims, but, except on one sector, they are evidently being repulsed with heavy casualties. Again there has been lively fighting in the air in the western theatre, between the British and Germans, in which eight enemy machines were shot down and eight others driven down out of control. The British themselves lost seven machines. In the Austro-Italian theatre the Italians have been forced to ground before violent attacks by the Austrians south of Asiago, which lies a short distance from the head of the Gulf of Trieste. All along the front the Austrians are heavily shelling enemy positions, with the Italians replying vigorously.

Destruction at Ostend
British official despatches regarding the British attack on Ostend, Belgium, state that the town has been almost completely destroyed. The dockyard was either seriously damaged or totally destroyed. The entrance gates to the dockyard basin, the wharf, the submarine shelter and a destroyer under repair were badly damaged. It appears also that several vessels were sunk.

RED DUNCAN ENDS CAMPAIGN IN HEART OF HOME DISTRICT CARRIES AUDIENCE WITH HIM

Liberal Candidate for East Edmonton Receives Enthusiastic Support. Brushes Aside Would-Be Hecklers—Hon. A. G. MacKay Excoriates Conservatives on Letter to Soldiers' Wives—A. E. May Also Speaks.

Red Duncan wound up an energetic and effective campaign with a night in the heart of his own district, held last night in the theatre on Alberta avenue. Mr. Duncan made a fighting speech which was well received by the audience and again by an audience which filled the house. One or two would-be hecklers who attempted to trip him in interruptions fared no better than the historic individual who, with the buzz saw and devoted afterwards that he had let him.

Concluding speaker was Hon. A. G. MacKay who was also in fine fettle. He has a more blistering attack on any political document heard upon a public platform. MacKay's characterization of the "Madam" letter issued by the Conservatives to soldiers' wives and of political and ordinary morality was a man who wrote it and were to profit by it.

In all it was a most successful night. The air was electric with enthusiasm for the Liberal cause and the cheering and the three Liberal candidates were the guests of honor.

Mr. MacDonal, a new speaker, said that he had been sitting back listening, watching and reading, trying to find out what, if anything was wrong with the government and what the policy of the Conservatives was. He had heard nothing worthy of consideration and the policy of the opposition appeared to consist only of a few slanders, a few criticisms of the government but nothing constructive. The present administration on the other hand, was responsible for more progress.

COALITION OFF VIEW PREVAILS AT THE CAPITAL

Speculation As To Future Expectation of Immediate Dissolution.

(By Morning Bulletin Leased Wire) OTTAWA, Ont., June 6.—While the capital is still anxiously awaiting the statements in parliament tomorrow afternoon relative to the coalition negotiations that have been in progress for some days past, the belief generally prevails that nothing has resulted from the deliberations of the two leaders, and that this will be definitely announced by tomorrow afternoon. This impression was strengthened by the proceedings in the house this afternoon, which indicated that matters were settling back into party lines.

Speculation as to future expectation of immediate dissolution. Speculation tonight has veered to the future developments in parliament, with the idea somewhat generally prevailing that the house will not long remain in session and that dissolution and an election are practically a certainty. Others believe that the house will sit for a considerable time and that the government proposes to put through its legislative program. The course of the government will probably be decided upon at a caucus of its supporters called for 10 o'clock on Thursday morning. The Liberals will also caucus this week.

Sir Robert Borden made a brief call at the office of Sir Wilfrid Laurier yesterday after 4 o'clock this afternoon, and it is stated that at this meeting the negotiations for a coalition were definitely terminated. Both leaders are expected to speak at considerable length when the house meets on Thursday afternoon.

WOMEN'S COUNCIL FAVORS DANCING IN CHURCH HALLS

(By Morning Bulletin Leased Wire) WINNIPEG, June 6.—Dancing in church halls as a means of meeting an acknowledged social problem under church control and religious influence has received the approval of the National Council of Women. Another resolution, carried unanimously, reaffirming a motion passed at Ottawa, will urge the Dominion government to grant immediately the federal franchise to all women. A resolution asking that the provincial governments make an alteration in the election laws, demanding the same qualification for women voters as for men, was passed at the morning session.

HON. C. STEWARTS RETURN ASSURED
SEDEGWICK, Alta., June 6.—Hon. Charles Stewart closed his campaign here tonight at a joint meeting of the opposition candidates, before the biggest crowd in the history of the town. Stewart shattered the charges of Leval in a splendid speech. Stewart's election is only a question of majority.

NORTHCLIFFE NOW HEADS BR. MISSION IN UNITED STATES

Takes Position As Successor To Mr. Balfour At Request Of Government.

(By Morning Bulletin Leased Wire) LONDON, June 7.—Lord Northcliffe, at the request of the war cabinet, has accepted the position of head of the war mission to the United States, in succession to Arthur J. Balfour, who is to return to his duties at the foreign office. Lord Northcliffe's task will be to co-ordinate the various British missions and act in concert with the missions of the entente allies and of the American and Canadian governments.

EIGHT GERMAN PLANES HIT IN RECENT RAID

Four Completely Destroyed—British Well Prepared—Great Battle Over the Sea.

(By Morning Bulletin Leased Wire) LONDON, June 6.—Eight out of eighteen German aircraft that took part in yesterday's air raid on Essex and Kent were driven down by British fighters. Four of these were completely destroyed, while two others are believed to have been put totally out of commission.

Ten Engage Sixteen
Of the eighteen machines that started in the raid two were brought down near the British coast, after having dropped their bombs, as reported in the official British statement. The remaining sixteen were engaged by ten naval fighters from Dunkirk, who, in a great battle over the sea, destroyed two more of the Germans and drove down another four, two of which, it is reasonable to believe, according to the official report, were completely put out of action.

On Watch
After the lesson of the Folkestone raid the British were ready for yesterday's raid, and from the moment the Germans left the Belgian coast they were engaged, first with patrols over the channel, then with the land forces in England, and later, on their return with the squadron of airplanes from Dunkirk.

In addition to this prompt defensive action, a warning was given the inhabitants of the districts visited, and they were able to take cover, so that the casualties, while considerable, aggregating twelve killed and thirty-six wounded, were much smaller than in the case of Folkestone, which had no warning.

Small Towns Suffer
Anti-aircraft guns and airplanes succeeded in keeping the raiders from the naval and military centres, and the casualties occurred chiefly in small towns and villages, on which bombs were dropped indiscriminately. The increasing importance of air-attacks on England and counter-attacks in Belgium by the British is being much commented upon, and it is expected the summer months will see many repetitions of yesterday's action.

POLICE WORK FOR UNITED STATES IS BOURASSA'S TERM
Description by Editor of Le Devoir of Conscription—Criticizes the Premier.

(By Morning Bulletin Leased Wire) MONTREAL, June 6.—Henri Bourassa, continuing his article on conscription in Le Devoir last evening, discusses why the Canadian cause for Sir Robert Borden's change of attitude on conscription. He says: "It is not to save democracy and superior civilization that Canada is threatened by the most hateful and bloodiest of tolls. It is not to help France and England. It is not even to support its own army. It is simply to do police work for the United States government."

ENTHUSIASTIC SCENES MARK CLOSE AT VERMILION
Premier Sifton concluded his campaign last night by addressing a crowded meeting at Mannville. The popularity of the first minister in his own constituency was strongly demonstrated by a rousing rally last night at Vermilion. It took place in the Columbia hall and so great was the attendance that many were turned away. The principal speaker was Mr. H. H. Knott, Edmonton, who eloquently and forcibly discussed the issues in the campaign.

CONSERVATIVES URGE ITALIANS TO VOTE AGAINST GOVERNMENT BECAUSE THEY GAVE PROHIBITION
Equaling the base appeal to the soldiers' wives and dependants which was sent out on Monday and Tuesday by the Conservative Association, was another issued by the same organization yesterday in Italian, and circulated among the Italian residents in the eastern part of the city.

It urges Italians to vote against the Liberals because they have enacted a prohibition law in the province. Here it is as translated into English:

ITALIANS:
Before you decide for whom to vote in the coming election, Thursday, May 7th, 1917, ponder well—Do not give support by vote to the ruin of the Province in which you live. Do not aid the party that supports the advancement of the Power of the Church.

COMPARE AND JUDGE BY THE FOLLOWING:
The Province of Manitoba with the population greater than Alberta spends for cost of civil government for one year \$188,620.51, while this province spends \$485,528.45. These records were published in English with no idea of defaming the government.

The Liberals of this province take credit publicly for depriving the people of liquor, so we can get no beer or other drinks. Will you vote for the Liberals when they boast that they have the law which we cannot get liquor of any kind? Will you vote for such church leaders?

If tomorrow you are in need of a favor or of work, you may get a promise from Duncan, the Liberal, but that is all. If you support Ramsey, the Conservative, and after voting for him you seek a favor you will get it, because Ramsey can do much for you, you may rest assured of that.

THINK WELL OF THE FUTURE!
VOTE FOR RAMSEY!
GET TOGETHER—UNION IS STRENGTH!

DR. JOHN NEIL MODERATOR OF GEN. ASSEMBLY

Chosen Unanimously Head of Presbyterian Denomination in Canada.

PASTOR WESTMINSTER CHURCH, TORONTO

600 Commissioners in Attendance at Ecclesiastical Court.

(By Morning Bulletin Leased Wire) MONTREAL, June 6.—Rev. John Neil, D. D., of Toronto, was unanimously chosen moderator tonight in the opening session of the forty-third general assembly of the Presbyterian church in Canada. Dr. Neil is pastor of the Westminster church, Toronto.

Dr. Fletcher Withdraws
There was another nomination for the moderatorship. Rev. Dr. Colin Fletcher, of Exeter, Ont., was named by the Rev. S. A. Carriere of Grand Bend, Ont. Dr. Fletcher arose before Rev. Mr. Carriere's motion could be carried and withdrew his name, stating that Dr. Neil's election should be unanimous.

Dr. Neil was nominated by J. K. MacDonald, of Toronto, a member of Westminster church, Mr. MacDonald's motion was seconded by the Rev. W. G. Clark, of Saskatoon. He was welcomed in the chair by the retiring moderator, the Rev. Dr. Andrew Brown, of Winnipeg, who, in a special address, expressed appreciation of the honor done him, and especially thanking the Rev. Dr. Fletcher for his graceful stepping aside.

Church Union
Dr. Neil during his address went very close to the subject that was in everyone's mind—that of church union. He said:

"This will be a very important assembly. There are a great many problems to be faced and dealt with, and my prayer is, and I know your prayer is, that we may approach the solution of these problems in a spirit of calmness, deliberation and of Christian faith."

"We are met under a cloud of war. We can truly say that we are building the walls in troubled times, but I am sure that our prayer is that we may have grace and strength to build these walls good and true and to build them so that we shall be bound ourselves more closely together in faith and love and sympathy."

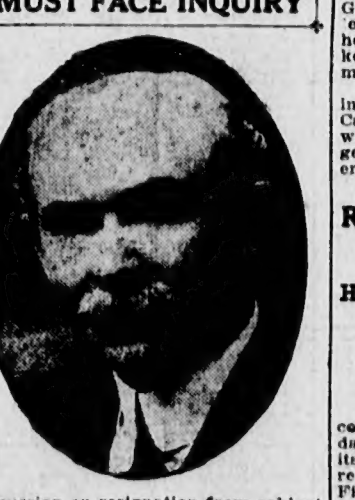

The response from the assembly at the conclusion of the new moderator's address showed that the election was a popular one.

The forty-third assembly was opened tonight in the Eskin church. About 600 commissioners were present. The retiring moderator, Rev. Dr. Baird, of Winnipeg, who conducted the public worship and preached a sermon, chose as his text, "The Righteous Shall Flourish Like the Palm Tree." (Psalms, 92, 12.)

MINCHIN TORY CHOICE FOR THE PEACE RIVER
SPIRIT RIVER, Alta., June 6.—D. H. Minchin was chosen as Conservative candidate at the convention held here today. William Rae is the Liberal candidate.

MUST FACE INQUIRY

Discussion on resignation from cabinet on Page 4.

MANITOBA'S HAY CROP IS RUINED SAYS WINKLER

No Amount of Rain Will Save It States Minister of Agriculture.

(By Morning Bulletin Leased Wire) WINNIPEG, June 6.—The hay crop of Manitoba is ruined. So declares Hon. Valentine Winkler, minister of agriculture, who says no amount of rain will save it now. The minister advises farmers to immediately sow corn for fodder. He says this can be done up to June 15, and corn will weather any drought. Mr. Winkler says the grain crop will be all right provided some rain comes along soon.

FEDERAL HOUSE HEARS OF HIGH COST OF LIVING

Government Urged To Take Over Cold Storage Plants For Public Good.

(By Morning Bulletin Leased Wire) OTTAWA, June 6.—In the house of commons today Hon. George P. Graham and Hon. Rodolphe Lemieux advocated the taking over of the cold storage plants for the public good, in view of the increased cost of living.

Mr. Graham declared that it would be a very difficult matter for the government to do this. The department of labor, however, was getting much information on the question. Even if storage plants were taken over, he was doubtful whether prices would decrease. It would involve more difficulties than the nationalizing of railways. World shortage and increased cost of production were the real reasons of the increased cost of living.

Hon. Mr. Lemieux declared that if prices continued to advance there would be bread riots next winter.

LAYMEN WANT TO BE A REAL FORCE

Strong Plea Made at the Manitoba Methodist Conference at Winnipeg.

(By Morning Bulletin Leased Wire) WINNIPEG, June 6.—The Manitoba Methodist conference opened today in Young church. Three sessions were held during the day. The session of the conference of laymen were marked by a strong plea that laymen of the church should become a real force in the discussions and administration of the church's affairs, and the committee was appointed to draft a resolution asking the public life of Canada, nor satisfactory evidence of the effect of the teachings given within the four walls of the building in which they were meeting. Then Mr. MacKay, concluding with the singing of the National Anthem, and Mayor Henry receiving assurance of support from members of the audience of having been unpatriotic, of wishing

"The government will come back to power stronger than ever in this province," said Hon. A. G. MacKay at a rousing meeting in Strand theatre, Whyte avenue, last night.

"This prediction of a Tory turnover is foolish and is being made to mislead the electors. This has not been a noisy election, on the part of the people but never in my experience in 10 general elections have I seen opinion throughout the country so solidly in favor of the government as this opinion being based on the fact that the Liberal administration in Alberta is working always for the common good, and for the making of the province a better place in which to live."

Brilliant of Enthusiasm
Never has the south side witnessed a more rousing political meeting than that which filled every available foot of the Strand theatre and greeted these and other stirring sentiments of Mr. MacKay with demonstrations of approval. The meeting will be remembered for its enthusiasm and its ringing denunciation from the platform of a campaign of slander and misrepresentation waged on the part of the opposition. R. B. Douglas, in whose behalf the meeting was held, made a particularly convincing speech with a sincerity that struck home and which won vote after vote which had been previously loyal to the opposition candidate. Mayor Henry made his first appearance of the campaign before a south side audience and on behalf of Mr. Douglas dealt vigorously with the issues at stake in the contest.

Mr. Douglas, according to the telephone administration, Some capital had been made by Mr. Crawford over the burning of what was practically waste paper, but the member for South Edmonton knew as well as any person that auditors had stated on the floor of the house that every pay sheet and document of any importance in regard to the telephone department had been produced.

A Decisive Hit
In the matter of cabinet travelling expenses regarding which Mr. Crawford had made so much noise, Mr. MacKay scored a decisive hit. "I want to see the minutes of this province travel. I want them to see how affairs are conducted in similar departments in other parts of the world. Even a millinery shop cannot run without travelling expenses. Does the opposition want our premier when he travels abroad on the public business to go steerage. Do the people of this province want him to ride a bicycle and carry his lunch when he travels in our interests?" The big crowd roared with laughter at this timely sally.

"The opposition only overlooked \$70,000 worth of live stock, \$37,990 worth of grain, 2,500 acres of new breaking and 2,500 acres of brushing, in addition to many other items, when they charged the agricultural schools and demonstration farms with being a financial failure. They also charge the per capita debt of Alberta is \$249 when it is but \$58. Never has truth been more foully murdered in a political campaign. If the Conservatives cannot boot at least they ought to be the land they live in, not to knock at least they might tell the truth if they can say nothing good for the government of the province," went on Mr. MacKay.

None of It
If civil service reform as advocated

ALL EMPLOYEES HAVE THREE HOURS IN WHICH TO VOTE
All employees of any firm or business are entitled to absent themselves from 12 to 3 o'clock today in order that they may vote. This provision of the election act was passed by the Sifton government as another boon to the working man.

Clause 15 of the Election Act reads: "Every voter shall on the day of polling for the purpose of voting be entitled to absent himself from any service or employment in which he is engaged or employed from the hour of noon until the hour of 3 of the clock next thereafter, and a voter shall not, because of his so absenting himself, be liable to any penalty or suffer or incur any reduction from the wages or compensation to which but for his absence he would have been entitled."

"Provided that this section shall not apply where a voter is by his employer permitted or allowed at any other period during the hours of polling reasonable and sufficient time and opportunity to vote."

Mayor Henry Winds Up Campaign With Enthusiastic Demonstration In the First Presbyterian Church

"I Am a Business Man and It Is Because I Believe I Can Serve You In That Capacity I Ask Your Vote," Declares the Liberal Candidate for West Edmonton—Hon. A. G. MacKay and Frank Ford, K.C., Also Spoke.

There was more than a promise of victory in the greeting given to Mayor Henry at the Liberal rally held in the First Presbyterian church last night in support of the candidature for West Edmonton. An enthusiastic outburst of cheering followed his introduction by Chairman W. H. H. as the "next member for West Edmonton," and this warm applause was repeated at intervals throughout the speech made by the mayor.

Business Government
In the course of his remarks he proved conclusively that under the Liberal government, the province had been maintained in an excellent financial position. Its assets were largely in excess of its liabilities, its credit was good, the agricultural industry had been developed by reason of the special measures passed by the government and the country opened up by reason of its railway policy.

The government was coming to him, he said, asking if it should continue this policy. It had something to tell them about what it had done. That was more than a lot of promises of what might happen if they were turned to power. "A business man," said the mayor, "and it is because I believe I can serve you in that capacity, I ask for your vote, knowing that you wish the government of this province carried on under the best principles of business management."

Main for Misrepresentation
"Those whom the gods would destroy they first make mad," said the Hon. A. J. MacKay, alluding to the rabid, extravagant actions the opposition had been indulging in during the last few days, particularly in sending out the letter to "soldiers' wives," calling them to the meeting at the Strand theatre the previous day. Such a letter, he said, was not a good reflection on the public life of Canada, nor satisfactory evidence of the effect of the teachings given within the four walls of the building in which they were meeting. Then Mr. MacKay, concluding with the singing of the National Anthem, and Mayor Henry receiving assurance of support from members of the audience of having been unpatriotic, of wishing

Good Enough Then
"In Mayor Henry," asserted Mr. MacKay, "you have a candidate that none need be ashamed of. Last fall, when he would have retired from the mayoralty, he was good enough for Jennings, Ramsey and Frith. If he was good enough then he was good enough now to be returned for West Edmonton."

"We want such men in the provincial house," said the speaker, "men with municipal experience and for that reason, I ask you to vote for Mayor Henry."

Mr. MacKay concluded by reading a translation of the letter sent to the Italian voters of the province, which appears in another column.

"There is no country in the world where the position of women with regard to property and rights is higher than in the province of Alberta," said Frank Ford, and the truth of his remarks was recognized with an outburst of applause. Mr. Ford alluded to the charge brought by the opposition against the administration of the liquor act, by the attorney general's department, and said that Mr. Ewing the Conservative candidate, knew that it had been taken out of the hands of the province. The meeting concluded with the singing of the National Anthem, and Mayor Henry receiving assurance of support from members of the audience.

GOVERNMENT WILL COME BACK STRONGER THAN EVER IS THE FORECAST OF HON. A. G. MACKAY

"This Prediction of a Tory Turnover Is Being Made To Mislead The Voters," He Tells Rousing Meeting In Strand Theatre, Whyte Avenue—R. B. Douglas and Mayor Henry Also Address the Demonstration.

"The government will come back to power stronger than ever in this province," said Hon. A. G. MacKay at a rousing meeting in Strand theatre, Whyte avenue, last night.

"This prediction of a Tory turnover is foolish and is being made to mislead the electors. This has not been a noisy election, on the part of the people but never in my experience in 10 general elections have I seen opinion throughout the country so solidly in favor of the government as this opinion being based on the fact that the Liberal administration in Alberta is working always for the common good, and for the making of the province a better place in which to live."

Brilliant of Enthusiasm
Never has the south side witnessed a more rousing political meeting than that which filled every available foot of the Strand theatre and greeted these and other stirring sentiments of Mr. MacKay with demonstrations of approval. The meeting will be remembered for its enthusiasm and its ringing denunciation from the platform of a campaign of slander and misrepresentation waged on the part of the opposition. R. B. Douglas, in whose behalf the meeting was held, made a particularly convincing speech with a sincerity that struck home and which won vote after vote which had been previously loyal to the opposition candidate. Mayor Henry made his first appearance of the campaign before a south side audience and on behalf of Mr. Douglas dealt vigorously with the issues at stake in the contest.

Mr. Douglas, according to the telephone administration, Some capital had been made by Mr. Crawford over the burning of what was practically waste paper, but the member for South Edmonton knew as well as any person that auditors had stated on the floor of the house that every pay sheet and document of any importance in regard to the telephone department had been produced.

A Decisive Hit
In the matter of cabinet travelling expenses regarding which Mr. Crawford had made so much noise, Mr. MacKay scored a decisive hit. "I want to see the minutes of this province travel. I want them to see how affairs are conducted in similar departments in other parts of the world. Even a millinery shop cannot run without travelling expenses. Does the opposition want our premier when he travels abroad on the public business to go steerage. Do the people of this province want him to ride a bicycle and carry his lunch when he travels in our interests?" The big crowd roared with laughter at this timely sally.

"The opposition only overlooked \$70,000 worth of live stock, \$37,990 worth of grain, 2,500 acres of new breaking and 2,500 acres of brushing, in addition to many other items, when they charged the agricultural schools and demonstration farms with being a financial failure. They also charge the per capita debt of Alberta is \$249 when it is but \$58. Never has truth been more foully murdered in a political campaign. If the Conservatives cannot boot at least they ought to be the land they live in, not to knock at least they might tell the truth if they can say nothing good for the government of the province," went on Mr. MacKay.

None of It
If civil service reform as advocated

Booming Perilous
Mr. Douglas read a splendid Tory appeal to Italian electors in which a reference to Liberals being responsible for the curtailment of liquor had a decidedly sensational effect on the audience.

"The Liberals have a definite policy of progress," said Mr. Douglas in closing, "while the Conservative policy seems to be nothing more than that they would do better if they were in power."

GEN. GURKO RESIGNS
PETROGRAD, via London, June 6.—General Gurko, commanding the forces on the western (Russian front) has again resigned.

ELECTION RETURNS

The polls in Edmonton and other Alberta cities on election day (Thursday) will open at 8 o'clock and close at six. In the country districts they will open at nine and close at five.

Returns will be received by special wire at The Bulletin office and will be posted at the front of the building as soon as they are received. The first returns from the country polls should be in before six o'clock.

ENO'S FRUIT SALT

The Gentle Laxative

FRED DUNCAN ENDS CAMPAIGN IN HEART OF HOME DISTRICT CARRIES AUDIENCE WITH HIM

(Continued from Page One)

gressive legislation than any other province in Canada had enacted.

The campaign, he said, was a contest between capital and labor. The Conservatives represented capital and the Liberals represented labor, the producing element in the country, and their legislation had all been to benefit the working man, and the producer, it had been for the advantage of the miner, the farmer, the factory worker and also for the women of the province.

Candidate Duncan was received with hearty, whooped applause when he was presented. He was speaking to his friends and neighbors and it was a great personal compliment that he received. He asked for support at today's polling because that he was an East Edmonton man and that the rule of an East Edmonton for East Edmonton was only right and fair. "My opponent," he declared, "when he appeals for your support on the ground that he has interests in this district stands on the ground of those who say that the property owners should be allowed to vote."

No Constructive Policy

When Mr. Duncan asserted that the Conservatives had no constructive policy a man in the audience disputed the statement and wanted to read the Conservative platform in contradiction. The speaker informed him that he knew well enough what it was and that it was destructive criticism from start to finish, "with a little falsehood at the end," he added.

The interrupter made several more observations but could not be understood owing to the laughter and cheers by Mr. Duncan's friends who were in no mood for seeking on this last night of the campaign.

The speaker, discussing the matter of soldiers' votes figured out that the government had dealt more than generously with the men overseas in the matter of the franchise. On a basis of population the 35,000 Alberta soldiers with their 14 representatives in the legislature had a constituency of 55,326 electors. In East Edmonton on member represented 11,000 votes.

Regarding the demand of the opposition for the disfranchisement of "alien enemies" Mr. Duncan declared that if a man was a British subject he was not an alien. He can't be both an alien and a British subject. He said that if the country broke its agreement with men who had been made citizens it would be doing the very thing it was fighting against and nullifying a sacred contract and making of its promise a mere scrap of paper.

Deals with Charges

Frank Ford dealt at some length with the charges of drunkenness at the Edson meeting, pointing out that it was the provincial police and not the attorney general who was responsible for the enforcement of the liquor law and that this force was under the control of a non-political commission consisting of Lieut. Col. Sanders, D.S.O., Magistrate Fritzsche and A. C. Browning, K.C. "If any of you think that these men are susceptible to political influence I would like to see you go down and try it," said Mr. Ford.

The speaker quoted from the letter of the Conservatives to the soldiers' legislature to the effect that "the government would have liked to have disfranchised the men at the front."

"Would they have given the wives, sisters and mothers of the soldiers the vote if they had really felt that way?" asked Mr. Ford. "Do you think Mr. Sifton was crazy enough to have introduced suffrage for women if he had wanted to disfranchise the soldiers?" The audience applauded the point.

That Check!

Hon. A. G. MacKay received an enthusiastic greeting and began by telling the audience that he had been

engaged in another fruitless endeavor to locate that clumsy \$250 check which is now said to be somewhere in the Journal office. Mr. MacKay said that as soon as he read the paragraph to that effect in that evening's paper he sent Mr. Campbell over to claim it. At the Journal office Mr. Campbell was told by the men in the office that they knew nothing about it but that he must call up the manager. The manager was finally located at his home and said something about coming around business hours.

"So I don't think I'm going to get that easy money, after all," laughed Mr. MacKay, making a gesture like that of a small boy snatching a bogus pocketbook by means of a string attached from the grasp of a too eager passer-by on the first of April morning.

Mr. MacKay devoted considerable time to the "soldiers' wives letter" from the Conservatives, quoting the expression that "the government has so shamefully disregarded the interests of our fighting men" and then proceeding to point out what the government had actually done in the way of relief, in settling up estates, in validating wills, in giving vocational training to the returned men, in finding positions for 1400 veterans and in giving the men at the front 14 representatives in the legislature. He characterized the expression as "a low mean lie and charged the men who were trying to get into office on the strength of it as "writing deliberate lies as ever sullied pen in this world."

The speaker also read the translation of the letter to the Italians, which appears elsewhere in The Bulletin today and cries of "Shame!" greeted it.

RAILWAYS ASK RATES RAISE AS WAR MEASURE

(Continued from Page One.)

All the year round. The goods were not available and were sidetracked to allow other goods the right of way and the damage claims for losses on this freight were almost nil.

The chief objection against the 15 per cent increase, said Mackin, was that it would disturb the basis of competition and give an advantage to the mountain lumbermen in competing for the prairie market.

What Increase Means
Fifteen per cent on the rate from the coast means an increase of 6 cents a hundred pounds; 15 per cent increase on the rates from the mountains to the prairie means three cents increase a hundred pounds, and favors the mountain lumber, he said.

Freight traffic manager, George Stevens, of the C. N. R., was called on by the chairman to make a reply but pleaded that he was not prepared.

"But you should be ready. You know whether you are making money or not. It is your own demand. You should be ready to support it," said Sir Henry Drayton, who agreed with G. H. Cottell, of the Vancouver board of trade that Mr. Stevens ought to have opened the case first.

Mr. Stevens insisted that he was not ready, but promised to file a brief in reply within forty-eight hours and furnish copies to the board of trade. He stated that coal alone was costing his company \$3,000,000 more this year than last and that other supplies had risen a hundred percent and over in some cases.

In adjourning the hearing Sir Henry stated full opportunity will be given for further evidence to be submitted at Nelson on June 16, Calgary on June 18, Edmonton on June 19.

FINAL DRAFT OF METHODIST STATION SHEET

Allotment of Ministers in Northern Part of Alberta For Present Year.

CALGARY, June 6.—Following is the final draft of the list of stations of the Alberta conference of the Methodist church in Alberta:

Red Deer District
Red Deer (Leonard Gaetz Memorial)—E. Bishop, T. A. Wilson, on military service; C. H. Heustis; J. F. Woodsworth; J. R. Earle; R. O. Jolliffe; R. S. Longley; E. J. Pratt; left without a station.
Red Deer East—R. E. Finlay.
Delburne—G. E. Graham.
Elmora—H. G. Smith.
Innisfail—A. A. Lytle.
Raven—One wanted.
Bowden—O. E. Mann.
Olds—G. D. Armstrong.
Westerdale—R. H. Parry.
Carmichael—W. L. Bradley.
Bancroft—To be supplied.
Crossfield—H. M. Horricks.
Bottrel—To be supplied.
A. G. Lea, J. H. Stark and R. C. Taylor, on military service.

Lacombe District
Lacombe—W. Hollingsworth; R. E. Newman, on military service.
Blackfalds—To be supplied.
Spruceville—F. J. Barneut, Lacombe, P. O.
Bentley—A. D. Miller, S. W. Nicholson, superannuated.
Kinsey—P. Amos.
Medicine Valley—One wanted.
Ponoka—J. W. Wilkin.
Clive—J. C. Rogers.
Mirror—To be supplied. E. Barnes on military service.
Bashaw—I. N. Hughson.
Battle River—R. B. Steinhauer.
R. J. Irwin, on military service.

Stettler District

MUNITION WORKERS FOR OVERSEAS DUTY

OTTAWA, June 6.—Single men of military age employed in Ottawa by the imperial munitions board, with no dependents, have been requested to present themselves for medical examination at the base recruiting office here. Any physically unfit overseas will be retained, but the others will be sent out. The board will also order \$6,000 on its inspection out Canada to present the examination. The other turned soldiers. Medical of the staff in Ottawa be

RAIN MAKING SWEET MUSIC FOR FARMERS

**Copious Showers Break Dry Spell
and Make Crops and Gardens
Rejoice.**

The drumming of the rain drops upon the roofs last night was sweet music to many an ear. The downpour came at a time when it was needed. For over a month a succession of cloudless skies and bright sunlight, while helping the grain and garden crops to germinate, has evaporated much of the stored up moisture of the winter and all nature was crying for a drink. The crops were in no danger, but the heavy showers which started in the evening and which continued steadily through the night were just what were needed to help them along.

The wheat and oats rejoiced, the grass grew an inch between sunrise and sunset, the corn stalks grew tall and the early peas and cabbages, why you could almost hear them laugh for joy.

Gardeners who have been figuring on giving up dirt for a high cost of living, but who produce in the horticultural line, will be the happiest of mortals today. Politicians may pull long faces and assert that the stay-at-home farmer will lose his business and his chances, but the man who has discerned his first potatoes pushing through the clouds whistles "I should worry" and goes about his business with as light a step as a dandelion seed.

As for the farmers, there is only one journalistic word that fits the occasion. It is "jubilation." It may be new to some. The farmers are jubilant. So are we all.

MAJ. J. A. O'DONOHUE

**WOUNDED IN THIGH
IN RECENT FIGHTING**

**Brockville Officer Joined The
Colors In Edmonton—Two
Alberta Casualties.**

BROCKVILLE, Ont., June 6.—Major J. Arthur O'Donohue, who enlisted at Edmonton, has been wounded in the thigh while in action on France.

Only two Alberta names appear in the casualty lists this morning, and neither of them is that of an Edmonton man. Pte. F. J. Burrell of Boyne Lake is reported to be seriously ill, and Sapper P. J. McCrimmon, of Calgary, of the Engineers, is wounded.

A Spring Tonic.

"Did you get a spring tonic for that tired feeling?" asked Kidleigh.

"Yes," answered Mr. Henpeck.

"Maria sort of braced me up with one."

Social Side of City Life

EDITED BY MISS MARION REYNOLDS

PERSONALS, MEETINGS, CLUB ACTIVITIES, WEDDINGS AND SOCIAL EVENTS.

Very successful was the rummage sale held on Wednesday by the W. A. of St. Paul's church. Beginning at 9.30 the sale was practically over by 11.30 and a gratifying sum realized.

On Friday of last week a presentation was made by the pupils and staff of Third Street Separate school to Peter Talbot, on the occasion of his enlistment with the 75th Field Battery. The presentation took the form of a military wrist watch. Herford Talbot, a brother, left Edmonton with the 63rd, and has been wounded twice since and is now in one of the hospitals in England.

Mrs. J. L. Crawford presided at the meeting of the King Albert chapter I. O. O. E., which met at the home of Mrs. Jas. Ramsey on Wednesday afternoon. In the absence of the regent who is out of the city. An exceptionally profitable afternoon was spent and much business accomplished. A sum was voted to the Red Cross Society, also to the Canadian Tobacco Fund and to the Traveller's Aid. Fifty dollars was voted to the Belgian Relief Fund. It was decided to make this the last meeting for the season and to resume in September. The Red Cross work is to be continued during the summer months as usual. Many volunteered to knit socks for the 21st Battalion. After the closing out of all business for the summer months, the meeting adjourned and Mrs. Ramsey took the members through her beautiful home much to the delight of all. The location of this fine home in New Glenora is very picturesque and the view of the river and surrounding country afforded much pleasure.

BEULAH MISSION
The Beulah Mission held an enjoyable service at the East End Park last Sunday afternoon. The special music and singing was much appreciated. It is the intention of the mission band to hold these services every Sunday afternoon at 3 o'clock during the summer months.

ST. JOHN'S AMBULANCE BRIGADE
Dr. Colville's class for men will be held at the Y. M. C. A. at 7.45 p. m. on Monday next, the 11th inst.

Out of Sorts

THAT IS, something is wrong with baby, but we can't tell just what it is. All mothers recognize the term by the lassitude, weakness, loss of appetite, inclination to sleep, heavy breathing, and lack of interest shown by baby. These are the symptoms of sickness. It may be fever, congestion, worms, croup, diphtheria, or scarlatina. Do not lose a minute. Give the child Castoria. It will start the digestive organs into operation, open the pores of the skin, carry off the fetid matter, and drive away the threatened sickness.

Castoria always bears the signature of *Dr. J. C. Williams*

BLOWEY-HENRY Co.

DO YOU KNOW?

THAT SAVINGS CERTIFICATES

are issued by your Provincial Government bearing 5% interest, compounded half yearly

THAT THE PROVINCE OF ALBERTA will therefore pay you two per cent. more on your SAVINGS than you receive from your Bank.

THAT you may deposit your savings and receive a Savings Certificate that will enable you to withdraw your money at any time and receive full interest for the time your money was on deposit.

THAT on the sum represented in every Savings Certificate interest will be compounded to your credit every six months.

THAT under these conditions you may leave your money invested with the Province for three years or longer.

THAT you may deposit any sum from \$5.00 upwards and receive a Savings Certificate for the amount deposited.

THAT one of the objects of Savings Certificates is to give those who can put by a small amount only each month an opportunity to receive a fair interest rate on their savings.

THAT you may forward a cheque from any part of the Province to the Provincial Treasurer without adding exchange.

A short letter to W. V. NEWSON, Deputy Provincial Treasurer, Edmonton, will bring you further information if desired.

THE WOMEN'S EXCHANGE

TODAY'S INQUIRIES.

1. How can clothes be sprinkled evenly?
2. In what way can cold cereal be utilized?
3. How can baking this be greased so that it will be unnecessary to wash them after each baking?
4. Is it necessary when using stationery with a black border to have the border narrowed in time, or should it remain the same width during the entire period of mourning?
5. Which is more correct, "very sincerely yours," or "very sincerely," in ending a letter?
6. How should an unmarried woman sign herself when writing a business letter and desiring to convey the information that she is single?

ANSWERS TO YESTERDAY'S INQUIRIES.

1. Use bran in scouring varnished woodwork to avoid scratching it.
2. A small celluloid implement which comes for the purpose is useful in scraping aluminum or enameled pots and pans, as it will not scratch them.
3. An asbestos pad made to fit the table should be placed under the silence cloth to protect the dining room table.
4. Tulle, net, messaline, or some other light silk would be suitable for summer evening gowns; velvets, brocades, and heavy satins are hardly suitable.
5. Short sweaters promise to be more fashionable this season than long ones.
6. Long-vamped shoes are in greater favor than those with short vamps at present.

Order of Bridal Procession

To the Editor of Woman's Page:

Dear Madam: Please tell me the order of procession for a bridal party of ten, including the bride, bridegroom, maid of honor, best man, two bridesmaids and four ushers. How do they go up the aisle and how do they go down after the ceremony?

ANXIOUS.

Your bridal party should have eleven members, the father of the bride or the person who takes his place and who walks with her up the aisle making the eleven. The bridegroom should proceed up the aisle in the following order: First the ushers, walking two by two; then the bridesmaids, walking side by side. The maid of honor follows the bridesmaids, but as she is alone she walks in the center of the aisle. Last comes the bride, who places her right arm through her father's left one. They

proceed in this order to the sanctuary or chancel rail, where the ushers and bridesmaids separate and go to either side, while the bridegroom steps forward, having entered the church followed by his best man at the door by the altar rail, and off to the bride his left arm, the father having stepped back. After signifying that he gives his daughter in marriage when the proper time comes, the father goes into the front pew beside the bride's mother. After the ceremony the bride and bridegroom lead the way down the aisle followed by the maid of honor, then the two bridesmaids and the four ushers. Some persons have the best man walk down with the maid of honor, but it is more usual for him to leave with the ushers and join the party at the house.

Rhubarb Canned in Syrup
Cut and peel rhubarb and fill fruit jars with the small pieces of rhubarb until you can't press any more in jars. To one cupful of sugar add one-third cupful of water and let the sugar and water come to a boil, then let it boil two minutes. Pour it on the rhubarb until it fills to the top. Have a long steel knitting needle and put it down through the rhubarb at the center of the jar, then flow down and let the air bubbles out. Seal and turn upside down until cold. Then put in dark closet. This is ready for use at any time. It is ready for use for a couple of minutes is ready for shortcake or side dish. Add a pinch of soda to each jar.

Sponge Cake
Just before putting sponge cake into the oven to bake, sprinkle over it a little granulated sugar. When this bakes it will form a thin, crisp crust.

CUPID'S COURT

Steen-Martin
At the home of Mr. and Mrs. Thos. Martin, 9983 89th avenue, South Side, at noon on Wednesday, a pretty wedding occurred when their daughter, Miss Ethel, was married to Mr. Walter Steen of Loughheed. The bride was daintily gowned in white tulle with silver lace trimmings. She carried the bride's train. The groom was in a tuxedo. The ceremony was performed by Rev. E. Val Tilton. The bride's going-away suit was olive green broadcloth opening over a blouse of pale pink georgette crepe. A becoming white hat completed this effective toilet. The guests included Mr. Roy Johnson and Miss Irish (Sedgwick), Miss Ada Martin, Mr. Roy Deacon, Miss Topping, Miss Beattie and Mr. Elwin Martin, Miss Quinn. Mr. and Mrs. Steen left on the thirty train for Banff, returning to reside in Loughheed where Mr. Steen is a prominent merchant.

Meetings
The regular monthly meeting of Strathcona C. T. U. will be held on Friday at 3 p. m. in the hall of the public library.

Clergyman Has Recovered
Was Unable to Fill Appointments and Greatly Discouraged by Continued Ill-health.

Gapanogue, Ont., May 24.—The many friends of Rev. George Alton are pleased to learn of his recovery after a long period of ill-health from bile, stomach troubles and severe headaches.

Mr. Alton had become very much discouraged over his inability to obtain relief, and thought he would have to quit the ministry, when fortunately he read about Dr. Chase's Kidney-Liver Pills and began their use. He tells the particulars of his case in this interesting letter:

Rev. George Alton, Gapanogue, Ont., writes: "I had been suffering from bilious attacks for four years. I was very weak, had no energy, and could hardly eat anything without being troubled by it. I had tried many cures, herbs, pills and salts, and was under the doctor's care for some time, but instead of getting better I seemed to get weaker. I was unable to fulfill my appointments on Sabbath and had to seek help. I used to take dizzy spells and could not walk across the floor straight. I had almost given up all hope, and my wife said that if I did not get better we would have to quit the work of the ministry. However, in looking over the 'British Whig,' the well-known Kingston paper, I saw Dr. Chase's advertisement in it, and read how Dr. Chase's Kidney-Liver Pills had helped others who were troubled as I was. I resolved to give these Pills a trial, and I must say that in a short time I obtained relief. I continued taking them for some time, and now I am able to resume my work again. From the benefit I have obtained from these pills, I would recommend them to all who suffer as I did."

Rev. C. Cunningham, 124 First avenue, Toronto: "This is to certify that I am personally acquainted with Rev. George Alton of Gapanogue, and believe his statement with reference to Dr. Chase's Kidney-Liver Pills to be true and correct."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 5 for \$1.00, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Hon. R. Rogers Retires Pending Action by Royal Commission

Premier Borden in Commons States That Findings of Judge Galt Will be Reviewed by Royal Commission at Request of Minister of Public Works—Mr. Rogers to Relinquish Duties Until Decision is Made.

Ottawa, June 6.—In the Commons this afternoon, the important question was raised by Mr. Robert Borden of the appointment of a royal commission to review the findings of Judge Galt of Winnipeg in respect to the construction of the Manitoba agricultural buildings, which will consist of Sir Ezekiel McLeod, former chief justice of New Brunswick, and Hon. Louis Letellier, a former judge of the supreme court of the province of Quebec. The commission has been appointed at the request of Mr. Rogers who will relinquish his duties as minister of public works until a finding is made by the department to be administered by the prime minister.

The matter was brought up on the orders of the day by the prime minister, who read a letter he had received from Mr. Rogers dated May 28, in which the minister of public works reviewed at some length what had occurred in connection with the inquiry. Referring to the evidence given by himself in Winnipeg, Mr. Rogers states in his letter that he was convinced that Judge Galt would spare no effort to do him (Mr. Rogers) justice. He stated further that if a proper tribunal were appointed he would have no difficulty in showing that the findings made against him by Judge Galt were not based on any evidence.

Sir Robert Borden replying to the minister of public works' letter on May 31, promised to bring the matter to the attention of cabinet council so that the opinion of all members of the government might be secured. The letter had also been referred to the minister of justice, who, yesterday, had made a report upon which an order in council had been based and passed by the cabinet council. The order in council read by Sir Robert Borden in the Commons, and which authorized the appointment of Sir Ezekiel McLeod and Hon. Louis Letellier as a commission to conduct an inquiry as to the facts of the case, was read. The minister of justice, who was to be taken over by him, should be sustained.

Sir Wilfrid Laurier said that he felt that the commission which had just been submitted to the house required some comments on his part. "I would say," he continued, "that the letter of public addressed by the minister of justice to the prime minister is absolutely derogatory to the honor of and dignity of the bench of this country. The letter refers to Mr. Justice Galt, but as Mr. Justice Galt acted not in his capacity as a judge, but he was selected as the honorable gentlemen who have been named in the order in council, Sir Ezekiel McLeod and Hon. Louis Letellier, I do not think that it is to be remembered and cannot be forgotten on this occasion that the commission of inquiry into the matter of unfairness by Mr. Justice Galt to him, arose largely, if not altogether, and I would say altogether, from the insult which was poured upon the head of Mr. Justice Galt by the minister of public works. The minister of public works was called upon to give evidence before the commission. He has the right to be summoned and to appear. And, sir, in the public press and in his evidence to the fact of Mr. Justice Galt, he called him a grafter."

Mr. Best—"Hear, hear."

Why a grafter? For what reason was he called a grafter? Because he accepted the duties of a justice of the high court which have just been delegated to Sir Ezekiel McLeod and Hon. Louis Letellier. If Mr. Justice Galt was a grafter, which I resent—I do not know Mr. Justice Galt, I have never met him in my life, he is a judge on the bench, that is all I know about him. If he is a grafter, he is having accepted the duties which he discharged, Sir Ezekiel McLeod and Hon. Louis Letellier can also be called grafters equally. There is no difference.

The tribunal which is being constituted by the government to investigate this matter is of no higher or no lower standing than the commission which was presided over by Mr. Justice Galt. I say this because I do not know Mr. Galt, but I understand that he is a judge of integrity, in good standing in his profession, and that his honor has never been impeached before. Before he was appointed to the bench he was not active in the interest of either party. Under these circumstances, if any new tribunal is to try the minister of public works, it should be a committee of this house. There are only two methods of making public investigations, either by a committee of this house, the high court of parliament, or by members of the bench, who are selected because of their legal standing and because they are supposed by the very character of their office to be above reproach. If the report is to be condemned because the commission was presided over by a judge of the supreme court, the new inquiry should not be entrusted to men of the same capacity."

Premier Replies
Sir Robert Borden—"I am not disposed to discuss the character and qualifications of Mr. Justice Galt on this or any other occasion unless a necessity should arise. As I understand it, the judges who are to accept this duty are to accept it on their own responsibility. My right honorable friend challenges the actions we have taken and challenges the reflections which have been made upon Mr. Justice Galt in a letter we have received from the minister of public works. I should like to remind my right honorable friend that on a certain occasion one of his colleagues who sits beside him in the cabinet, Mr. Justice Galt, in my memory is correct, with regard to Mr. Justice Landry of the supreme court of New Brunswick, and did so without any reproach from my right honorable friend. I am willing to contrast the action which we have taken in this matter with that which my right honorable friend took on that occasion. Findings had been made by a committee of which Mr. Justice Landry was a member. The matter was brought to the attention of parliament and it was urged that such a finding should not pass unchallenged. The only result of the action, the precise words of which I have now before me, was that my right honorable friend ignored the findings which we had received from the committee. No consideration to the finding was given by him and the then minister of public works retained his position."

JOINT ATTACKS BY AIR AND SEA MOST EFFECTIVE

Commodore Tyrwhitt's Success Part of Combined Move on German Stations

London, June 6.—"It is barely a month since the admiralty announced that the Harwich scouting force had met and chased back to its base a German force of 11 destroyers," writes the Times' naval correspondent. "On that occasion the enemy got away. Now Commodore Tyrwhitt has had another chance and with better luck has not only destroyed and badly injured another. The smart action evidently was part of another combined sea and air attack on the German strongholds of Zebrugg and Ostend, such as was carried out on April 7 and 8 and on May 22. For nearly a week past the Belgian port and other military stations in the neighborhood have been made the objective of the Royal Navy and Air Service."

"Short of tackling these places on the land side, which must require military co-operation, there is no more efficacious method of dealing with them than by air and sea. In spite of their occupation of the 'horns' nest, Zebrugg, the Germans have utterly failed to interrupt channel communications but have made themselves so objectionable that strenuous measures have long been indicated as necessary. The task is as arduous and trying as it is indispensable. Evidence of a more vigorous policy will be received with general satisfaction."

15,000 RAILWAY EMPLOYEES GET RISE IN WAGES

Montreal, June 6.—Following negotiations between representatives of the federal trades and the Canadian Pacific Railway Company, which were concluded yesterday, the company's locomotive mechanics and car department mechanics from Vancouver to St. John, N.B., will receive an increase of approximately 20 per cent. over their present wages. The management of the Canadian government railways has, it is understood, also expressed its intention of offering a similar increase to their shop employees, while it is anticipated that the Canadian Northern will also follow the lead of the other two companies. The agreement entered into will affect about 15,000 men. They mostly thirty per cent. to meet the high cost of living and a compromise on the basis of about 20 per cent. was reached.

CLOSE CABARETS IN CITIES OVER 10,000

St. Paul, June 6.—A drastic order, based on a statement from Secretary of War Baker that military camps must be maintained where normal conditions are not of the best, was issued by the Minnesota Public Safety commission late yesterday, which will result in the immediate closing of cabarets in which intoxicating drinks are sold in all cities in Minnesota over 10,000 population, namely, St. Paul, Minneapolis, and Duluth.

The commission also ordered that all saloons in the state must be closed from 10 p. m. to 5 a. m., except where earlier closing hours already are in force; that no women be served with drinks at any time and that no women be allowed in saloons.

Was Anaemic

For Over a Year.

Anaemia, or blood turning to water, is caused by the heart becoming weakened and if the heart becomes weakened it cannot pump the blood as it should. As a result the blood becomes impoverished, and it loses its nourishing qualities. The cause may be pale and thin, and the lips bloodless. There is a weakness, tiredness and loss of weight.

When those suffering from thin or watery blood start taking Milburn's Heart and Nerve Pills they can see a change from the outset.

Every dose introduces into the blood those vital elements necessary to make it rich and red. The pale cheeks take on the rosy hue of health, the weight increases, and the whole being thrills with a new life.

Mrs. R. J. Grey, Fredericton, N.B., writes: "When I was a girl working at general house work I overtaxed my strength and became completely run down. For over a year I was very bad with anaemia. A friend told me to try Milburn's Heart and Nerve Pills so I got a box and when it was done I felt and looked so much better I decided to get a box more. When I had taken them I had gained not only in strength, but in flesh and color, and best of all was good health."

Milburn's Heart and Nerve Pills are 50c a box; three boxes for \$1.25. Get at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FAMILY DOCTOR'S GOOD ADVICE

To Go On Taking "Fruit-a-tives" Because They Did Her Good

Roche, P. Q., Jan 14th 1915.
A little lad of three.
I suffered for many years with terrible indigestion and constipation. I had frequent dizzy spells and became greatly run down. A neighbor advised me to try "Fruit-a-tives." I did so and to the surprise of my doctor, I began to improve, and he advised me to go on with "Fruit-a-tives."

I consider that I owe my life to "Fruit-a-tives" and I want to say to those who suffer from indigestion, constipation or headaches—try "Fruit-a-tives" and you will get well.

CORINNE GAUDREAU.
50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

The Daily Poem

MEMORY.

I stood and watched him playing,
A little lad of three.
And back to me came straying
The years that used to be:
In him the boy was Maying
Who once belonged to me.

The self-same brown his eyes were
As those that once I knew;
As glad and gay his cries were,
He owned his laughter, too,
His features bright and size were
My baby's, through and through.

His ears were those I'd sung to;
His chubby, little hands
Were those that I had clung to;
His hair in golden strands
It seemed my heart was strung to
By love's unbroken bands.

With him I lived the old days
That seem so far away;
The beautiful and bold days
When he were here to play,
The sunny and the gold days
Of that remembered May.

I know not who he may be
Nor where his home may be,
But I shall always be
In hope again to see
The image of the baby
Who once belonged to me.

—Edgar A. Guest.

HONORABLY MENTIONED

PARIS, June 6.—Sergeant Willie Haviland of Minneapolis is honorably mentioned in an official summary of the exploits of the American "aero" squadrons.

SUFFERED NINE YEARS

Many Remedies Tried in Vain. Well and Strong After Taking Lydia E. Pinkham's Vegetable Compound.

Spartanburg, S. C.—"For nine years I suffered from backache, weakness, and irregularities so I could hardly do my work. I tried many remedies but found no permanent relief. After taking Lydia E. Pinkham's Vegetable Compound I felt a great change for the better and am now well and strong so I have no trouble in doing my work."

I hope every user of Lydia E. Pinkham's Vegetable Compound will get as great benefit as I did from its use. —Mrs. S. D. McABER, 122 Dewey Ave., Spartanburg, S. C.

The reason women write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved. This is a praiseworthy thing to do and such women should be highly commended.

Behind the Footlights

What the Advance Man says.

ASTONISHING INVENTION SHOWN IN THE FILMS

The sea chamber and tube with which the Williamson Brothers descended to the very floor of the ocean in quest of unusual and exclusive motion pictures is a very ingenious and at the same time a very simple apparatus.

The tube, which is three feet in diameter, is made of banded steel placed one over the other like the scales of a fish and united by rings of malleable iron. Over this frame is stretched a covering of waterproof canvas, thus forming a cylinder sufficiently strong to resist the pressure of the sea as the depth increases. The diameter is sufficient to allow an operator to communicate with the outer world. Through this submarine chimney the operator can descend hundreds of feet without any difficulty in breathing. The upper end of this tube opens on the deck of a ship and at its lower end is a circular compartment over five feet in diameter, with a funnel-shaped window, which forms a vertical laboratory.

This apparatus was originally built by the inventor, Captain Charles Williamson, a noted British navigator not for the purpose of taking motion pictures, but to explore the bottom of the sea in search of sunken treasures, pearls and sponges, and to repair ships. However, his eldest son, Ernest Williamson, a cartoonist, an photographer, saw at once the possibilities of employing the apparatus to take submarine photographs, and his inventive ingenuity, undisturbed by the fact that his father had not intended him to devise the photographic chamber at the lower end of the flexible tube. With the assistance of powerful batteries of electric lamps, magnificent photographs were obtained of the floor of the ocean with the waters of the British West Indies. These were exhibited at the first international moving picture exhibition in New York City some year ago and caused a sensation, not only among movie fans, but among the geographical societies of the British Empire and the other enlightened countries of the world.

Under favorable conditions it is possible with the Williamson apparatus to obtain photographs at a most any depth. Many of the scenes in "The Submarine Eye," the astounding water drama now at the Empress theatre, were photographed in over 100 feet of water. Just imagine a love romance being enacted at the bottom of the ocean, with the sharks and the corals and the fishes as silent witnesses.

STARTED IN SHOW BUSINESS AT FIVE

That he knows no business but the theatrical business, which he has identified with since he was a romper at five years old, may be truly said of Julian Hall, "the veritable boy" at the Pantages theatre this week. He has done everything in vaudeville and circuses except mop the lobby and lay the sawdust.

Hall's father took him out with the Sun Brothers' World's Progressive Shows, nineteen years ago. Those were the days when a man had to be an all-around performer to hold a job so before he was 15 years old Hall was "doing" seven acts every afternoon and six every evening, including contortion, hand balancing, trapeze work, acrobatics, song and dance and a musical act in the concert after-piece following the main performance.

In addition to these multifarious and numerous duties he swung a baton in the street parade. Today Hall is one of the best known players in America. Until twelve weeks ago he was a unit of the Musical Loretas, but he felt that he would be more useful to himself and vaudeville if he started in business for himself. Thus is the variety stage given a clever trombone and saxophone player and Charlie Chaplin impersonator rolled into one person considerably less than 7x feet tall.

Photoplays

'Publicity men tell of current attractions on the screen in Local Picture Houses

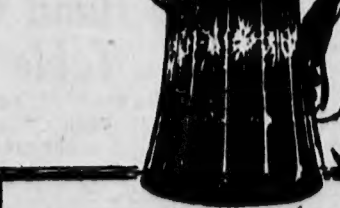

MONARCH—Never in his several months as a motion picture star has Douglas Fairbanks resorted to the "knock-em-down-and-drag-em-out" variety of comedy to register laughs. There is no comedian on the screen today who uses more legitimate methods in getting his audiences to show their intense satisfaction and induce them to come back again when they get tired of this smiling, personality genius of the Arcturion studios. The worst that can be said of his work in any motion picture is that he establishes a few new records for strenuousness, but never stoops to the level of a burlesque comedian. If a smile will not illuminate the screen sufficiently for the most critical audience, Fairbanks does a graceful jump from the

MAJESTY—A story that lingers in the mind of the great Metropole production, with Mabel Taliferro as star, which was shown at the Majestic yesterday for the first time and is being repeated today. Miss Taliferro is seen at her best in this delightful play, which shows her as a living sunbeam, shedding warmth and happiness and the light of her sorrows of poverty. The story of "The Sunbeam" was written by Shannon Fire, whose play "The Great Metropole" has won world-wide prominence for him. No picture could bring out the wonderful artistic talent of Miss Taliferro more than does this five act play. As a sweet pure generous working girl of the sweetest and subtlest type, at one time, and extreme viragoes at others. These varying degrees of her art Miss Taliferro brings out with tremendous effect. Supporting the star are such noteworthy actors as Raymond McKee, Gerald Griffin, in his role of a wealthy candy maker, displays all of his remarkable ability as an impersonator. Taken all in all "The Sunbeam" is one of the most delightful photoplays that has been shown in Edmonton this year.

"SUNBEAM" PROVING POPULAR

The small boy has found another hero. This time in Chester Barnett, who braves the sharks in the crystal-clear waters of the British West Indies to investigate and recover a chest of sunken treasure lying 80 fathoms deep. Clad in his watertight diving suit and breathing the air that is pumped into his helmet by artificial respiration from above, Barnett is lowered to a depth of 84 feet, and there enacts before the camera at the bottom of the sea his part in a drama of the tenses and thrills.

Meanwhile, using the inverted periscope from which the picture playing at the Empress theatre, we see the sunken treasure chest and the sunken ship. Barnett succeeds in raising the lid of the treasure chest that the Submarine Eye has discovered, but a heavy man-eating shark brushes against his air-line and knocks the heavy lid of the chest against his hands.

Refreshing—Satisfying!

Dorothy Dalton and Enid Markey in "The Female of the Species."

Showing at the Empress today only

top of a two-story house, and if the falls to electrify he hops from a housetop to a moving train. This stunt in itself is supposed to win him the legion of friends. In "In Again Out Again," with Fairbanks as the star, at the Monarch theatre all the week the Arcturion's player climbs up the front of a building with the ease and abandon of a sideshow or jungle simian. But this is only one of his many stunts in this pleasing and laughable film, the first of the Arcturion's with "Doug" as the star. "A Romance of the Redwoods" with Mary Pickford, will be the attraction on the program at the Monarch all next week. Unlike most of Miss Pickford's recent film stories, "A Romance of the Redwoods" is the far West as a locale.

EMPRESS—Presenting spectacular scenes during the action of a screen drama, the sole purpose of giving a thrill to the audience is a thing no longer done by really up-to-date picture producers according to Thomas H. Ince, who cites as an example of the proper use of a spectacular scene the latest Triangle-Kay film, "The Female of the Species," the pen of Russell E. Smith, which is at the Empress theatre for today only. Miss Dorothy Dalton is seen in the leading role. The plot of this story virtually hinges on a railroad collision, in which Howard Hickman, as Carlton Condon, suffers loss of memory. This spectacle showing a collision of two overland trains in the dead of night far out on the desert, and the tangled debris of the sleeping cars breaking into flames, is essential to the story, since, incidentally, and not merely for a spectacular scene inserted to create a "momentary thrill." The very considerable footage we exposed in making this scene, declares Mr. Ince, "has no moment but the scene was worth every foot and every minute of the time we devoted to obtaining it. The day of the thrill that is superficial has passed. Only necessary thrills are accepted and appreciated by the audience. That is the reason why we incurred the expense of filming the wreck scene in 'The Female of the Species.' The film is spoken highly of by Peter Milne, who criticized the film for the Motion Picture World. He says: 'The points that line up in favor of the picture are its good production, its one big thriller, the railroad wreck and its several good characterizations rendered by the three leads. The work of the picture department is never open to criticism. The polish it contributes to pictures counted in the ultimate good effect they create.'

MAJESTY—A story that lingers in the mind of the great Metropole production, with Mabel Taliferro as star, which was shown at the Majestic yesterday for the first time and is being repeated today. Miss Taliferro is seen at her best in this delightful play, which shows her as a living sunbeam, shedding warmth and happiness and the light of her sorrows of poverty. The story of "The Sunbeam" was written by Shannon Fire, whose play "The Great Metropole" has won world-wide prominence for him. No picture could bring out the wonderful artistic talent of Miss Taliferro more than does this five act play. As a sweet pure generous working girl of the sweetest and subtlest type, at one time, and extreme viragoes at others. These varying degrees of her art Miss Taliferro brings out with tremendous effect. Supporting the star are such noteworthy actors as Raymond McKee, Gerald Griffin, in his role of a wealthy candy maker, displays all of his remarkable ability as an impersonator. Taken all in all "The Sunbeam" is one of the most delightful photoplays that has been shown in Edmonton this year.

REPRESENTATION, AS
USUAL

Several correspondents have

drawn attention during the campaign to the misrepresentation in the Journal customarily

presentations of fact regarding important matters of concern. The correspond-

ents are quite right in their characterization of the political news

supplied by that paper, the Bulletin must plead guilty, having failed to undertake

keep track of the wild imaginations of its contemporary and to

set the succession of hoodlums as they appeared.

indeed would be a task to be undertaken with misgivings, and unlimited

and energy. And in days of the high cost of

and the plenitude of importance it did not seem fair to

ers of the Bulletin to deprive of information of real interest

value in order to fill columns with exposures of the latest

editions of a notorious falsification. The Journal has been

now for some years, constantly on the lines followed by

ing this campaign. If it had in that time succeeded in es-

ching in the minds of its readers the utter unreliability of the

information it puts before regarding matters political

ould be a hopeless task for an paper to seek to enlighten

But there is ample evidence that the readers of the Journal have taken its measure—af-

id in the fact that they usually on public questions the

nt tells them not to. For the of lying it has done the

al has produced less results any other paper in Canada,

y pursues the tenor of its misad way with unshaken faith

falsehood is stronger than

That is a maxim to which

ulletin has never subscribed, it has endeavored throughout

campaign to give an honest

alike of political happen-

and of the speeches of Op-

tion candidates, leaving it to

ers of its contemporary to dis-

the vapors of the Journal

the usual rate.

TIME FOR ACTION

Canadian people are prob-

not anxious to add to their

responsibilities that of the

ment operation of coal

But public policy must

itself to the exigencies of

time if the forces of govern-

ment are to be employed to avert

calamity and promote the

al welfare. Western Can-

as threatened with a coal

age next winter, by the strike

has been for months hinder-

the output of coal from the

's Nest mines and that has

paralyzed the operation of

lines in the Yellowhead Pass.

at threatened catastrophe is

averted the operation of the

must be resumed, not three

months hence, but now.

tie-up of the Crow's Nest

has exhausted the reserve

of coal which should al-

famine. If Canada had a Minister of Labor who was alive to the seriousness of his job means would have been found long ago for ending the dead-lock and getting the Crow's Nest mines again into operation. Not having a Minister who knew how to minister, the infection has spread until now the mines west of Edmonton are also out of business. It is high time Sir Robert Borden rescued the people of the prairies from the menace imposed upon them by a Minister of Labor who refuses to function, and took means to start the mines upon which those people have to depend for coal once more into operation, under Government control—if other means are impossible—as a temporary expedient.

Vote.

Vote early.

If in doubt vote for a constructive Government in preference to a purely destructive Opposition.

The Sifton Government has its faults; but it has also talent for something more than fault-finding.

Candidly, what claim has Mr. Michener advanced for the Premiership except the fact that he would like to be Premier?

The public never yet got good representation from a man who resorted to misrepresentation to get elected, and never will.

If Edmonton wants the north country opened up for settlement it should send men to the legislature who will demand that that be done and will support the Government in doing it.

If Edmonton wants the north country opened up for settlement it should vote for the Government that is being condemned elsewhere in the Province for opening up the north country.

If Edmonton electors declared against the policy of railway construction, what hope or chance would there be of getting the north country opened up, whichever side was in power?

By their votes on Thursday the women of Alberta will either vindicate their right to take part in political discussions or sanction the propaganda to abuse and insult them off the platforms.

The Sifton Government does not claim perfection. But the choice is not between the Sifton Government and perfection. It is between the Sifton Government and the Michener Opposition.

About the loudest complaint the Opposition have made in this campaign is because the Government persisted in giving the public a chance to get a better Government if they could find one in sight.

In fairness it ought to be admitted that the Southern papers have beaten their record this campaign. It was quite a record to beat, they have done it. A more vigorous and consistent campaign to substitute misrepresentation for facts was never seen in these parts before.

Mr. Michener and his friends wanted the Government to suspend the franchise and legislate them into another term as members of the Legislature. If elected would they abolish electoral rights and concede the public the privilege of electing another Legislature only when they got ready?

If the north country is not settled the question of Edmonton's future will be. And settlers will not go into a country unless it has railway facilities or the prospect of getting them. And railway facilities have never been extended into vacant areas in the West without some form of public assistance.

A significant fact is that Opposition candidates have been refusing of late to allow Liberal speakers the usual privileges of addressing their meetings. Men do not do that who have a good cause. The man who relies only upon facts and sense does not have to muzzle his opponents when he presents his case.

That circular letter to the soldiers' wives is easily the dirtiest piece of misrepresentation, and the silliest, that the Opposition have yet achieved. If the Opposition candidates in the city desire to qualify for the votes of people who have intelligence, and who respect truth and fairness, they will dissociate themselves from the contemptible imputation that "The Government would have liked to disfranchise the men at the front entirely, but realizing

"how much indignation this would cause, it has made a pretense of giving them their rights." The Opposition candidates do not believe that the Ministers had any such vile motive as that, and the public do not believe that they believe it. They are simply trying to get votes under false pretenses of believing ill of men as honorable as themselves.

The Minister of Agriculture is condemned because the Demonstration farms have not shown a profit on operation as yet. What has not yet been shown is how the critics of the Minister would have run the farms so as to make them show a profit. Also what important public service would have been rendered by farms run on the basis of making the income equal the outgo in each year of operation. This province is studded with farms that have had to be run on the principle of producing what could be produced most quickly and easily and sold to get a living for the farmer and his family. If the idea was merely to demonstrate that a man could go on a vacant quarter section and by hardships and hard work succeed in keeping himself and his family alive it would be an absolute waste of money to have any demonstration farms at all, for that fact has been abundantly proven by thousands of homesteaders. The claim that the demonstration farm should be run on the lines of a homestead is simply a claim that there should be no demonstration farms at all.

For a year past every official who was formerly connected with the administration of the liquor license business of the Province has been kept under suspicion by Dr. Stanley, Mr. Ewing and other members of the Opposition who have stated that some such officials were in the habit of holding up license-holders for money, either as the price of improper concessions or as the price of immunity from prosecution for infractions of the law. During the time there have been held two sessions of the Legislature. Also during that time there has been a standing offer from Premier Sifton that the Opposition could choose their own lawyers, magistrates and judges, and go ahead with the prosecution of any of these allegations they believed capable of proof, and the Province would pay the costs. Yet not a shred of evidence in support of any of the allegations has been put before a committee of the Legislature for preliminary investigation; nor has action been started against a single official. Isn't it about time these Opposition gentlemen either started to do something or stopped trying to pose as suffering from a consuming desire to expose wrong-doing and purge the public life of the Province? Being members of the Legislature they have not been liable to actions for slander on the part of officials whose good names they brought under suspicion and have kept in question. But legal immunity from the consequences that would have fallen upon other people for the same action is no justification of their course. In fairness to the officials, to themselves, and to the public, they should have backed up their imputations or admitted that these were founded solely on suspicion.

Current Comment

Here's To That Day.

From Birmingham (Ala.) Ledger:

When Germany backs across the plains of Belgium to her own border we may expect the hardest fighting. By that time American troops will be there.

Ireland Blocks Her Own Road

From London Daily Chronicle:

The last thing that will help now either to free or to unite Ireland is bad blood. What is wanted rather is a further determination on the part of all long-headed Irishmen, North and South, to try to pull together. There was never so much sympathy for them in Great Britain as there is now; and the last stretch of the road which leads to ultimate success in that direction, though it may be still hidden by fog, is not a long one.

Knows Where Gov't Stands.

From the Ottawa Citizen:

The west certainly knows where the government stands on the tariff question now.

Amputation in 1863 and in 1917.

From Kansas City Star:

In six weeks the British alone have fired two hundred thousand tons of ammunition in France. The official estimate of the ammunition by both the Union and Confederate armies at Gettysburg is 560,000 tons, including the missiles hurled from Lee's 150 guns on Seminary Ridge across to Meade's centre on Cemetery Ridge, the most terrific bombardment of the Civil War. The British, therefore, have used 350 times as much ammunition as was fired at Gettysburg, enough to have kept that great battle going, at the same rate for three years. The nation trusts that the War Department is figuring on the basis of 1917 rather than the basis of 1863 in providing ammunition for the new army.

ANSWERS

This department does not pretend to be infallible. It will endeavor, however, to answer questions sent to it by readers of The Bulletin to the best of its ability, reserving the right to ignore all that are trifling or of concern only to the questioner.

To receive attention, every inquiry must bear the name and address of the questioner. This information is not wanted for publication, but as evidence of good faith.

Creating a Bear Skin.

To the Bulletin: Would you give information on the following questions:

1. A bear was shot last week; is it possible, that the skin can be made into a robe, or will the hair fall out, the animal being killed in spring? 2. Is there an establishment in Edmonton doing business in converting such skins into robes? 3. If so, kindly give address. 4. If not, can you favor me with any information?

A. G. Leduc.

1. Taxidermists advise that the skin should be stretched in the shade of the north side of a building and then heavily salted and rolled up. Under these conditions there should be no trouble about the hair falling out. Excellent work in converting such skins into robes is done by Wolfe & Hine of 10154 102nd street, Edmonton.

To the Bulletin: Would you kindly answer the following questions in your query column:

1. What Princesses are eligible to marry the Prince of Wales?

2. Could the Prince of Wales marry a Princess of India?

3. Who are the Roman Catholic Princesses in Great Britain?

4. Who are the Princesses of Norway, Sweden and Denmark of a marriageable age?

C. M. D., Edmonton.

1. Any prince is eligible to marry the Prince of Wales.

2. Yes, the Prince could marry a Princess of India.

3. There are no Roman Catholic Princesses in Great Britain.

4. This information can be secured easily at the public library, where there are a number of authorities available.

Aeronautics in War.

On June 13, 1794, the French at Maastricht, in a battle with the Austrians, used for the first time an aerial vessel in warfare. It proved very useful for purposes of reconnaissance. Just previous to this General Meunier, a French officer, had planned an elliptical dirigible airship which in the main included all the important principles involved in the modern dirigible. It is probable that he would have carried out his scheme if he had not been killed fighting the Prussians at Mayence in 1793.

Hon. George Murray.

How long has Hon. George Murray been Premier of Nova Scotia?

H. M. Murray formed an administration on the resignation of Mr. Fielding in 1896 and has been sustained at the various general elections since.

Ten Good Reasons Why W. T. HENRY Should Be Elected in West Edmonton

**Electors
Read These
Ten
Reasons
Over Very
Carefully**

**They Will
Convince
You That
W. T. Henry
should be
the People's
Choice**

- (1) BECAUSE, in civic life he has shown outstanding administrative ability which will be of still greater service to the city in the larger sphere of provincial affairs.
- (2) BECAUSE, his experience gained in municipal affairs will make his service to the province invaluable in dealing with problems affecting the cities of this province.
- (3) BECAUSE, his 25 years successful business record in Edmonton has demonstrated his grasp of business affairs, and this training will enable him the better to assist in administering the great and growing business of the province of Alberta, which can be best conducted by experienced business men.
- (4) BECAUSE, he believes in a continuation of the Progressive Policy laid down and followed by the Sifton Government during the last seven years, and which has done much for the development of our province—especially the northern portion thereof, and directly the City of Edmonton.
- (5) BECAUSE, he is also in favor of the policy of the Sifton Government in encouraging and stimulating, by progressive legislation, the development of the agricultural resources and interests of the province.
- (6) BECAUSE, he has shown in a practical way his appreciation of the sacrifices Alberta's soldiers have made, by his endorsement of the Sifton Government's policy of re-education, and acting as a member of the board having this important matter in hand.
- (7) BECAUSE, he is quite in accord with the policy of the Sifton Government in giving our soldier boys representation in the provincial parliament by electing two members direct from the soldiers, together with eleven soldier representatives, elected by acclamation, thereby giving these soldiers thirteen direct representatives in the next parliament, which policy has the endorsement of no less an authority than the London Daily Mail, the best informed and most influential newspaper in the British Empire.
- (8) BECAUSE, he stands today, and has always stood, for equal rights, and under his administration as Mayor of the city, equal franchise for the first time in Canada was extended to women, thus setting an example which has been followed by the province, and which is meeting with favor throughout the Dominion and the British Empire.
- (9) BECAUSE, he has always stood, and stands today, for the protection of the rights of the working man, believing in the fair wage clause and the eight-hour day, and is heartily in accord with the Human legislation passed by the Sifton Government by which the young women of the province are protected in a living wage, which legislation will do much to elevate the moral tone of the community.
- (10) BECAUSE, since it is a foregone conclusion that the Sifton Government will be returned, he would, as a supporter of that Government, be in a better position to promote the welfare and protect the interests of the city than a member elected in opposition to the Government.

VETERANS AND MOUNTIES FACE RAIN AND MUD

Heroes of Flanders and Red Coats Play An Exciting Soccer Game.

To men who have campaigned in Flanders mud such a little thing as spring showers was no reason for postponing a football game and as for the mounted police, their duties require them to be abroad in all kinds of weather. So the "soccer" game between teams representing the returned veterans and the "mounties" was played last evening as per agreement, regardless of the rain.

It was a rattling good game too, all of "pep" and action of all kinds soon started to flash.

The mounted policemen, being fit and experienced, won the match, five to three.

The soldiers, all of whom have been returned because of disabling wounds or sickness were, of course, under a handicap for that reason, but they gave a good account of themselves.

Notwithstanding, the mounted police team, with the same enthusiasm and determination they showed when going "over the top" against the Hun.

The game was played in Diamond Park, beginning soon after 7 o'clock, in account of the wet there were not many spectators on hand, but what there were were "rooted" hard. Q. Cargill, forward, satisfactorily.

The mounties scored first but the soldiers speedily equalized. Again the policemen put the ball between the posts and again the veterans did the same. A third time the police team scored but a third time the soldiers captured the point and the score stood three all.

Then the police let out a link and scored two goals in succession. The rain was beginning to tell upon the veterans and they were not able to penetrate the defence of their adversaries after that so the final score was:

R. N. W. M. P., 5; Returned Soldiers, 3.

For the police Baray scored three, Sait, two and McKay one. The centre forward of the veterans was responsible for all three goals made by his side and was by all odds the best man on the field. Moss, Barry and Saul did good work for the mounties. A return match between the teams is anticipated in the near future.

The line up was as follows:

R. N. W. M. P.—Goal, Davies; Backs, Warrior and Pease; Half Backs, Garland, Moss and Clifford; Forwards, Brown, Saul, Baray, Buchanan and McKay.

Returned Soldiers—Goal, Pleasant; Backs, Goodall and Adams; Halfbacks, Jennings, Price and Hodges; Forwards, Burke, Hunter, Guld, Monroe and Miller.

SOMETHING FOR TRAP SHOOTERS TO FIGURE OUT

Here is a puzzle that is going around among trapshooters and threatens to become as famous as how old is Ann?

On one of the eastern railroads there is a freight crew, all of whom are trap shooters. As they have limited time to attend trap shooting clubs, they practice their favorite sport en route.

Their method is to send one of the boys forward about five car lengths ahead of the caboose with a hand trap and some clay targets, and while the train is moving at about thirty miles an hour the trapper throws the targets off to one side at right angles from the train. The shooters are located in the observatory of the caboose and test their skill at hitting the flying clays.

This gives rise to the conundrum: Suppose the target were thrown from the rear platform of a train going thirty miles an hour. The greatest distance at which a target can be thrown with a hand trap is about eighty yards, and it travels this distance in about three seconds.

Assuming that the average target must be hit within sixty yards of the shooter, and that he is standing alongside of the hand trap operator, how much time does he have in which to hit the target?

After our trap shooting friends have solved the above problem they might turn their attention to this one:

How much time would he have to hit the target if it were thrown forward from the engine pilot and he were standing alongside the trapper?

Sporting Facts and Fancies

Conscription can do a lot of the teams some good, if any of the regulars come within the drafting age.

Consensus of opinion seems to be that the Legislature didn't kill the fight game in New York, but that the fighters and promoters let the game commit suicide.

No less than eight former Yanks and Giants appeared with the Cubs on their first visit to the Polo Grounds, but their welcome home didn't extend further than third base.

All of which goes to prove that anything is fair in love and baseball—even to the extent of scooping your former side-kick on the gilded dome.

Fact that Cleveland hung in first division for such a long time brings to our attention that it can't rain forever.

Out in Cleveland they only have two seasons, losing and rainy.

If Washington was in the Belt of Calms, they would never have to substantiate their October to April claims.

Looks now like most of the regattas this season will be over that 2,000 mile course popularly known as the Atlantic.

George W. Chalmers, he of the Phillies, and briefly of the Giants, finds himself within two years of being exempt from the conscription rule today. He was born in Aberdeen, Scotland, 25 years ago. This twirler has a record of being one of the heaviest pitchers on any major league baseball corps during the days before he was stricken with a sore arm, from which it is today a question whether he has fully recovered. His weight always dangled around the 200 mark and never fell below 195. When he was 18 years old, following the usual school and sand-lot experience through which every boy passes, he went to work for the Herantown team, where he served two years before he attracted the attention of the Phillies. He only got in four games for the Phils in the fall end of 1910, but in 1911 and 1912 he was a first-string twirler and had the other teams guessing throughout both seasons. In 1913 he was able to win but three games out of thirteen starts and in 1914 his sore arm kept him out of any average at all. He spent the last part of the season with the Giants, where he was released by the Phillies and in 1915 between his stints for New York and Philadelphia where he was returned early in the season, he won but eight games and lost nine. Last season found him of no practical use to Manager Moran, who started him in twelve games. He is credited with having won one and lost four games.

In a letter to a New York sporting writer, President Wilson has said, "I would be sincerely sorry to see the men and boys in our colleges and schools give up their athletic sports, and I hope most sincerely that the normal course of college sports will be continued, not only to afford a diversion to the American people, in the days to come, when we shall no doubt have our share of mental depression, but as a real contribution to the national defense."

No better a testimonial to the good psychological affect which clean sports have on the human race could be secured than the very words of President Wilson—and coming as they do, from the highest officer in the land, they should be well digested by college and school heads before the athletic fields are closed utterly for the year. Presidents and faculties of colleges have been somewhat hysterical in following this scudous from sport competition. There has existed some feeling among the athletes which reveals fear that if they remain in sports that they will be called "slackers." The communication of President Wilson to the sporting writer furnishes the best reply to such fear. The president distinctly says "normal course of college sports," and that doesn't mean any slackening activity in games and healthful competition on any athletic field.

TAKE YOUR DOLLARS FORTH AT THE FRONT

Show Your Prosperity by Patriotic Investments—

Not by Ostentatious Expenditures!

The "Good Spender" has lost caste!

The war is bringing Canada back to a true sense of values. To-day she is honoring the man who works, saves and serves rather than the man who indulges and spends.

Economy is no longer furtive—thrift is no longer despised! The contempt of real Canadians is reserved for lavish, selfish expenditure of money which should be devoted to the Country's needs. He who parades his wealth to-day is jeered—not envied.

Canada is spending millions for all that makes life dear. She needs every dollar her loyal sons can spare. Cut out your luxuries and invest the money thus saved in Canadian War Savings Certificates!

"A War Savings Certificate in every Canadian home will help to win the war, and will also pay you over 5% interest!"

Sr. Chas. White, Minister of Finance.

THE NATIONAL SERVICE BOARD OF CANADA.

R. B. BENNETT, Director General.
C. W. PETERSON, Secretary.

You Can Easily Supply Your Wants Through Little Bulletin Ads

RATES FOR CLASSIFIED OR WANT ADVERTISEMENTS

Situations Vacant, Situations Wanted, To Rent, Articles for Sale, Lost or Found, Business Cards, etc. 10¢ per word per insertion; 5¢ per word per week; 20¢ per word per month. No advertisement taken for less than 25 cents.

In computing the number of words in an advertisement figure groups of five or less figures as one word. Dashes, marks and all abbreviations each count as one word. Advertisers who desire mail order facilities addressed to their private address. A charge of 50¢ is made for each insertion. This charge covers insertions in both Morning and Evening Editions of The Bulletin. Special contract rates for standing cards full information on which will be given at the office.
